Subject: Ahlstrom-Munksjo Thilmany Plant - question on 114 response

Hi Victoria,

During our call on 5/24/19 you asked a question about a missing stack test from our 9/14/18 section 114(a) submittal. Specifically you thought the 2016 test for the Lime Kiln was not included in our submittal. I have looked through what we sent and found it was included in the zip file titled Expera EPA Info Request. Look under EPA03/Air Emission Tests/EXP 2623.pdf for the test report dated 9/30/2016

If you are still unable to find the report I can email the pdf separately.

Thanks

Mark
